

AXIS 50 EM

Electronic Wheel Alignment

Laser Kit for Earthmover

Laser-Wheel-Alignment-System For very big Wheelsizes

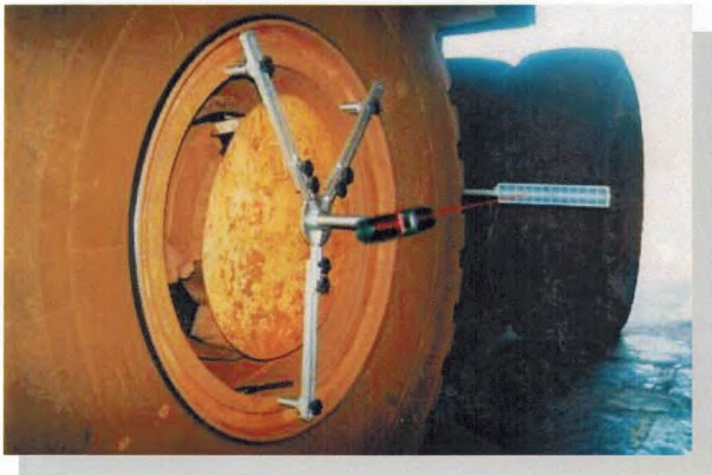

Laser-Aglnemnt-System
for Earthmovers
with very big
Wheels Sizes

Part no. 922 000 008

This Wheel-Alignment-System of the well known AXIS Series allows an ideal fixing of the clamps at the rim. This is based on a special lenght of the arms and the double magnets.

The clamping range of the Wheel-Alignment-Clamps is from 49" - 63"

Wheel-Alignment-Clamp at a 57"-rim

Wheel-Alignment-Clamp with double magnets.
For better adjustment, it is possible to deactivate
the magnets.
